**SYSTEM CONCEPTS, INC. ANNOUNCES NEW CLIENT: LUCKY EAGLE CASINO**

*Lucky Eagle Casino chooses FOOD-TRAK for its food and beverage cost control.*

**Scottsdale, AZ – March 13, 2009** – System Concepts, Inc. (SCI), an industry leader in food and beverage cost control, is proud to announce that Lucky Eagle Casino has selected the FOOD-TRAK System for its food and beverage management solution. Located in Rochester Washington, Lucky Eagle Casino offers four fine dining choices including the Grand Buffet, Prime Rib & Steakhouse, Center Stage Grill & Cabaret and Sidewalk Deli. Lucky Eagle Casino will use the FOOD-TRAK Food and Beverage Management System to control its costs throughout their four distinctly different restaurants.

"Two of the key reasons we chose FOOD-TRAK is because it will allow us to fully integrate our inventory control system, plus, it will expand to fit the growth of our own organization," said Steve Schrader, F&B Director. "Now we can manage our F&B costs through planning and forecasting versus our previous method of shock and reaction."

"Lucky Eagle is one of the most successful casinos in southwestern Washington and we are excited they are implementing the FOOD-TRAK System for accurate F&B inventory and reporting," said Bill Schwartz, CEO of System Concepts, Inc. "They realize that decreasing food and beverage costs will be much simpler than increasing sales right now."

Operated by the Chehalis Tribe, Lucky Eagle Casino hosts the finest entertainment experience in the Pacific Northwest and has the largest variety of slot machines and table games in the area, plus four different restaurants featuring a wide range of menu items. What's more, the Lucky Eagle Casino is renowned for bringing live professional boxing and world famous entertainers to southwest Washington.
